# War Food Administration, Summary to WFO-67, Am. 3.

The War Food Administration has amended War Food Order No. 67 to permit industrial consumers to accept delivery of inedible tallow and grease after July 1, 1944 by certifying its use directly to the supplier, eliminating the necessity

of filing application with WFA in Washington.

The amendment will not materially affect the operation of the order, but will reduce the amount of paper work required of both industry and WFA.

WFO No. 67 allows a prior claim on inedible tallow and grease supplies (up

to 30 percent) for use in all industrial operations except in the manufacture of soap. Before accepting delivery under the amendment, users must certify to their suppliers that none of the quantity accepted will be used in soap production. Certifications for July delivery must be made between June 20 and July 10.

#### War Food Administration, Summary to WFO-67 Amendment 6.

The War Food Administration has amended War Food Order No. 67 to reinstate provisions which limit the inedible tallow and grease inventories of producers, dealers and manufacturers.

These provisions have been suspended since May 20, 1944.

Effective March 3, 1945, individual inventories of manufacturers will be limited to  $\frac{1}{2}$  of the quantity of inedible tallow and grease used during the last 6 months of 1944, or a  $2\frac{1}{2}$ -month supply. Inventories of producers and dealers will be limited to  $\frac{1}{2}$  of their production or

deliveries during the 6-month period, or a  $\frac{1}{2}$ -month supply.

Because of a reduction in hog slaughter, production of inedible tallow and grease during 1945 is expected to be substantially less than during 1944. Stocks are declining and inequalities in distribution already are becoming apparent.

(For Trade and Summary)

WASHINGTON, April 17, 1945.

*WFO 67 (Inedible Tallow and Grease) Amended.* The War Food Administration has announced an amendment to WFO 67 which will, effective May 1, 1945,

restrict manufacturers' inventories of inedible tallow and grease to one-third instead of five-twelfths of the quantity used during the last 6 months of 1944. This restriction will provide a 2-months' supply and should result in a more equitable distribution of these materials.

The amendment further provides that,

effective immediately, producers and dealers make available 50 percent instead of 30 percent of their deliveries of inedible tallow and grease to manufacturers other than soap makers. This preference is extended because of the military importance of the products manufactured.

CLINTON P. ANDERSON,  
Secretary of Agriculture.

U. S. Department of Agriculture  
Summary to WFO-67 Amendment 8

The U. S. Department of Agriculture today removed the regulation under War Food Order 67 which required non-soap users of inedible tallow or grease to file

certificates with their suppliers for preferential delivery of these fats. In announcing the removal, the USDA said that the end of the war had made designation of preferred users for the supply no longer necessary. All users will now be allowed to purchase inedible tallow or

grease on an equal basis, restricted only by the inventory limitations of the order which remain in effect.

Today's action was taken under Amendment 8 to WFO 67, effective October 1, 1945.
